
Single-person
Electric Cryochamber

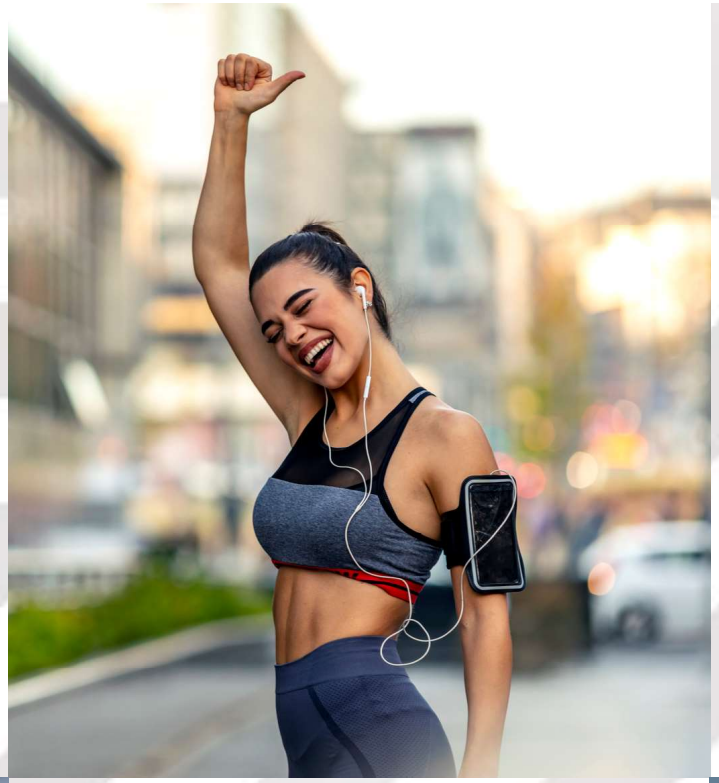
Introducing the most powerful single-person electric whole body cryochamber capable of reaching temperatures down to -100°C.

ZIMNO TECH

Improve Performance & Training

Increase blood circulation
and cell oxygenation
for improved performance

Increase pain threshold
to enhance training capabilities



Better Pain Management & Injury Recovery

Reduce swelling and inflammation
for quicker recovery

Trigger analgesic effect
to reduce receptor sensitivity

Boost Energy Levels

Boost adrenaline, and testosterone
to Increase focus and determination

Stimulate hormonal system
to enhance mood and quality of sleep

COLD

Capable of reaching
Down to - 100°C
without added windchill

SLIM

A single-person
cryochamber
designed to fit any space

PREMIUM

Built with the
highest grade materials
delivering stunning results

1COOL

1- person cryochamber

A single person unit that is a true powerhouse in its class. This cryochamber has lightning fast cool down time and ultra low temperatures. All without the need for additional boosters or fans to increase the “perceived” temperatures. The 1cool cryochamber guarantees real cold.

100% FULLY ELECTRIC

Designed to optimize business operations eliminating the need to order and store expensive cryogenic nitrogen gas

READY TO USE

A minimal recovery time between sessions allows operators to optimally run cryo sessions every 15 minutes

EVEN TEMPERATURE GRADIENT

Crafted to ensure clients experience equally cold exposure from head to toe, capable of reaching temperatures of -100°C/-148°F

AUTOMATIC WEEKLY ON/OFF SCHEDULE

Ready whenever you need it, programmed to automatically turn on and pre-cool based on your business schedule and runs a drying protocol at the end of the day

WORKS IN ALL CONDITIONS

Designed to operate flawlessly in variable outdoor climate conditions ranging from extreme heat of up to +47°C down to blistering cold temperatures of -37°C

Features

USER FRIENDLY

The 24” touch screen presents an intuitive user interface putting the operator in complete control over device and its features

TWO WAY COMMUNICATION

Easily communicate with your clients with the external microphone and hear what is going on inside the cryochamber at all times

SESSION INTENSITY SELECTION

Allows operators to personalize the windchill factor during the session depending on the client comfort level

LED LIGHTING

Users enjoy a futuristic LED lighting system which illuminates the inside of the cryochamber improving visibility throughout the session

BLUETOOTH CONNECTED

Connect any device to the built-in Bluetooth device (Google Home) so that users can enjoy music of their choice and chill to their favorite hits

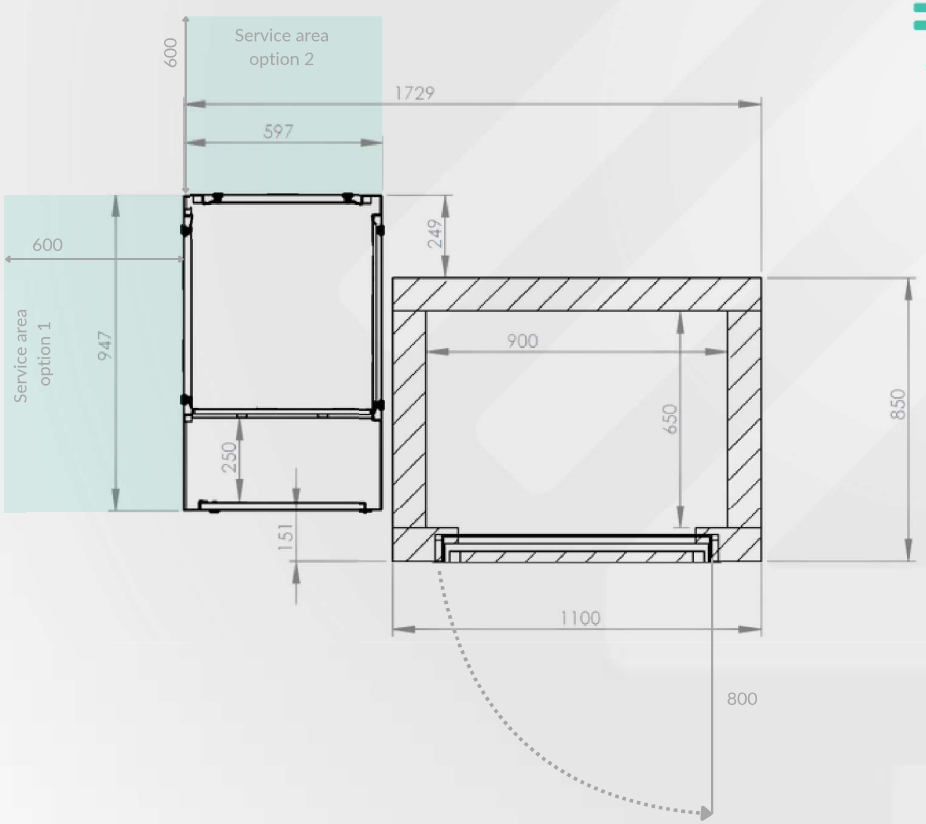
Technical Specifications:

Temperature:	Down to: -100°C Average: -90°C
Cooling Time	1 hour: -90°C 2 hours: -100°C
Recovery Time	10 minutes
Sessions Per Hour	4-6 sessions
Operating hours per day	10-12
Power Consumption	10-12 kW
Electrical Supply	400 V / 3 Ph / 50 Hz / 32 A
Space Required	2330 (W) x 1900 (D) x 2600 (H) mm
Load Capacity	760 kg/m²
Anti-frost Window	Yes
Installation time	3 days
Remote Support	Monitoring and service
Stereo sound	Yes
Warranty	2 year

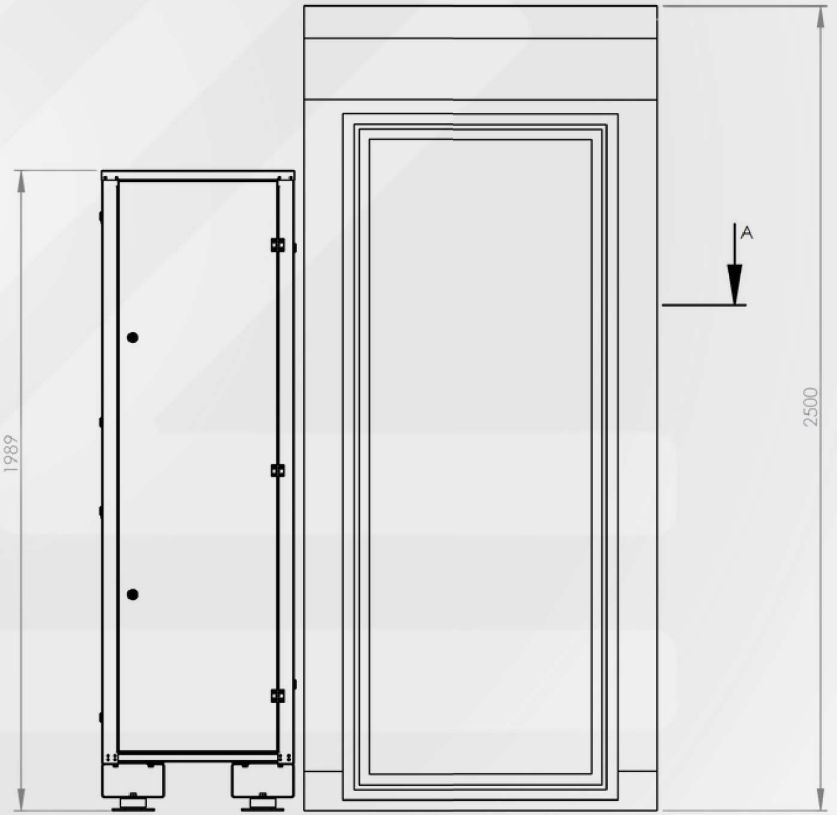
Project Requirements

The 1cool cryochamber must be installed in a room where the temperature, humidity and ventilation are controlled via an air conditioning unit. The placement of the device must consider a minimal area required, either behind or to the side of the unit, to allow for servicing. The chiller must be installed outside with access to circulating air, either on the roof or on the ground level, depending on the building.

Floor Plan

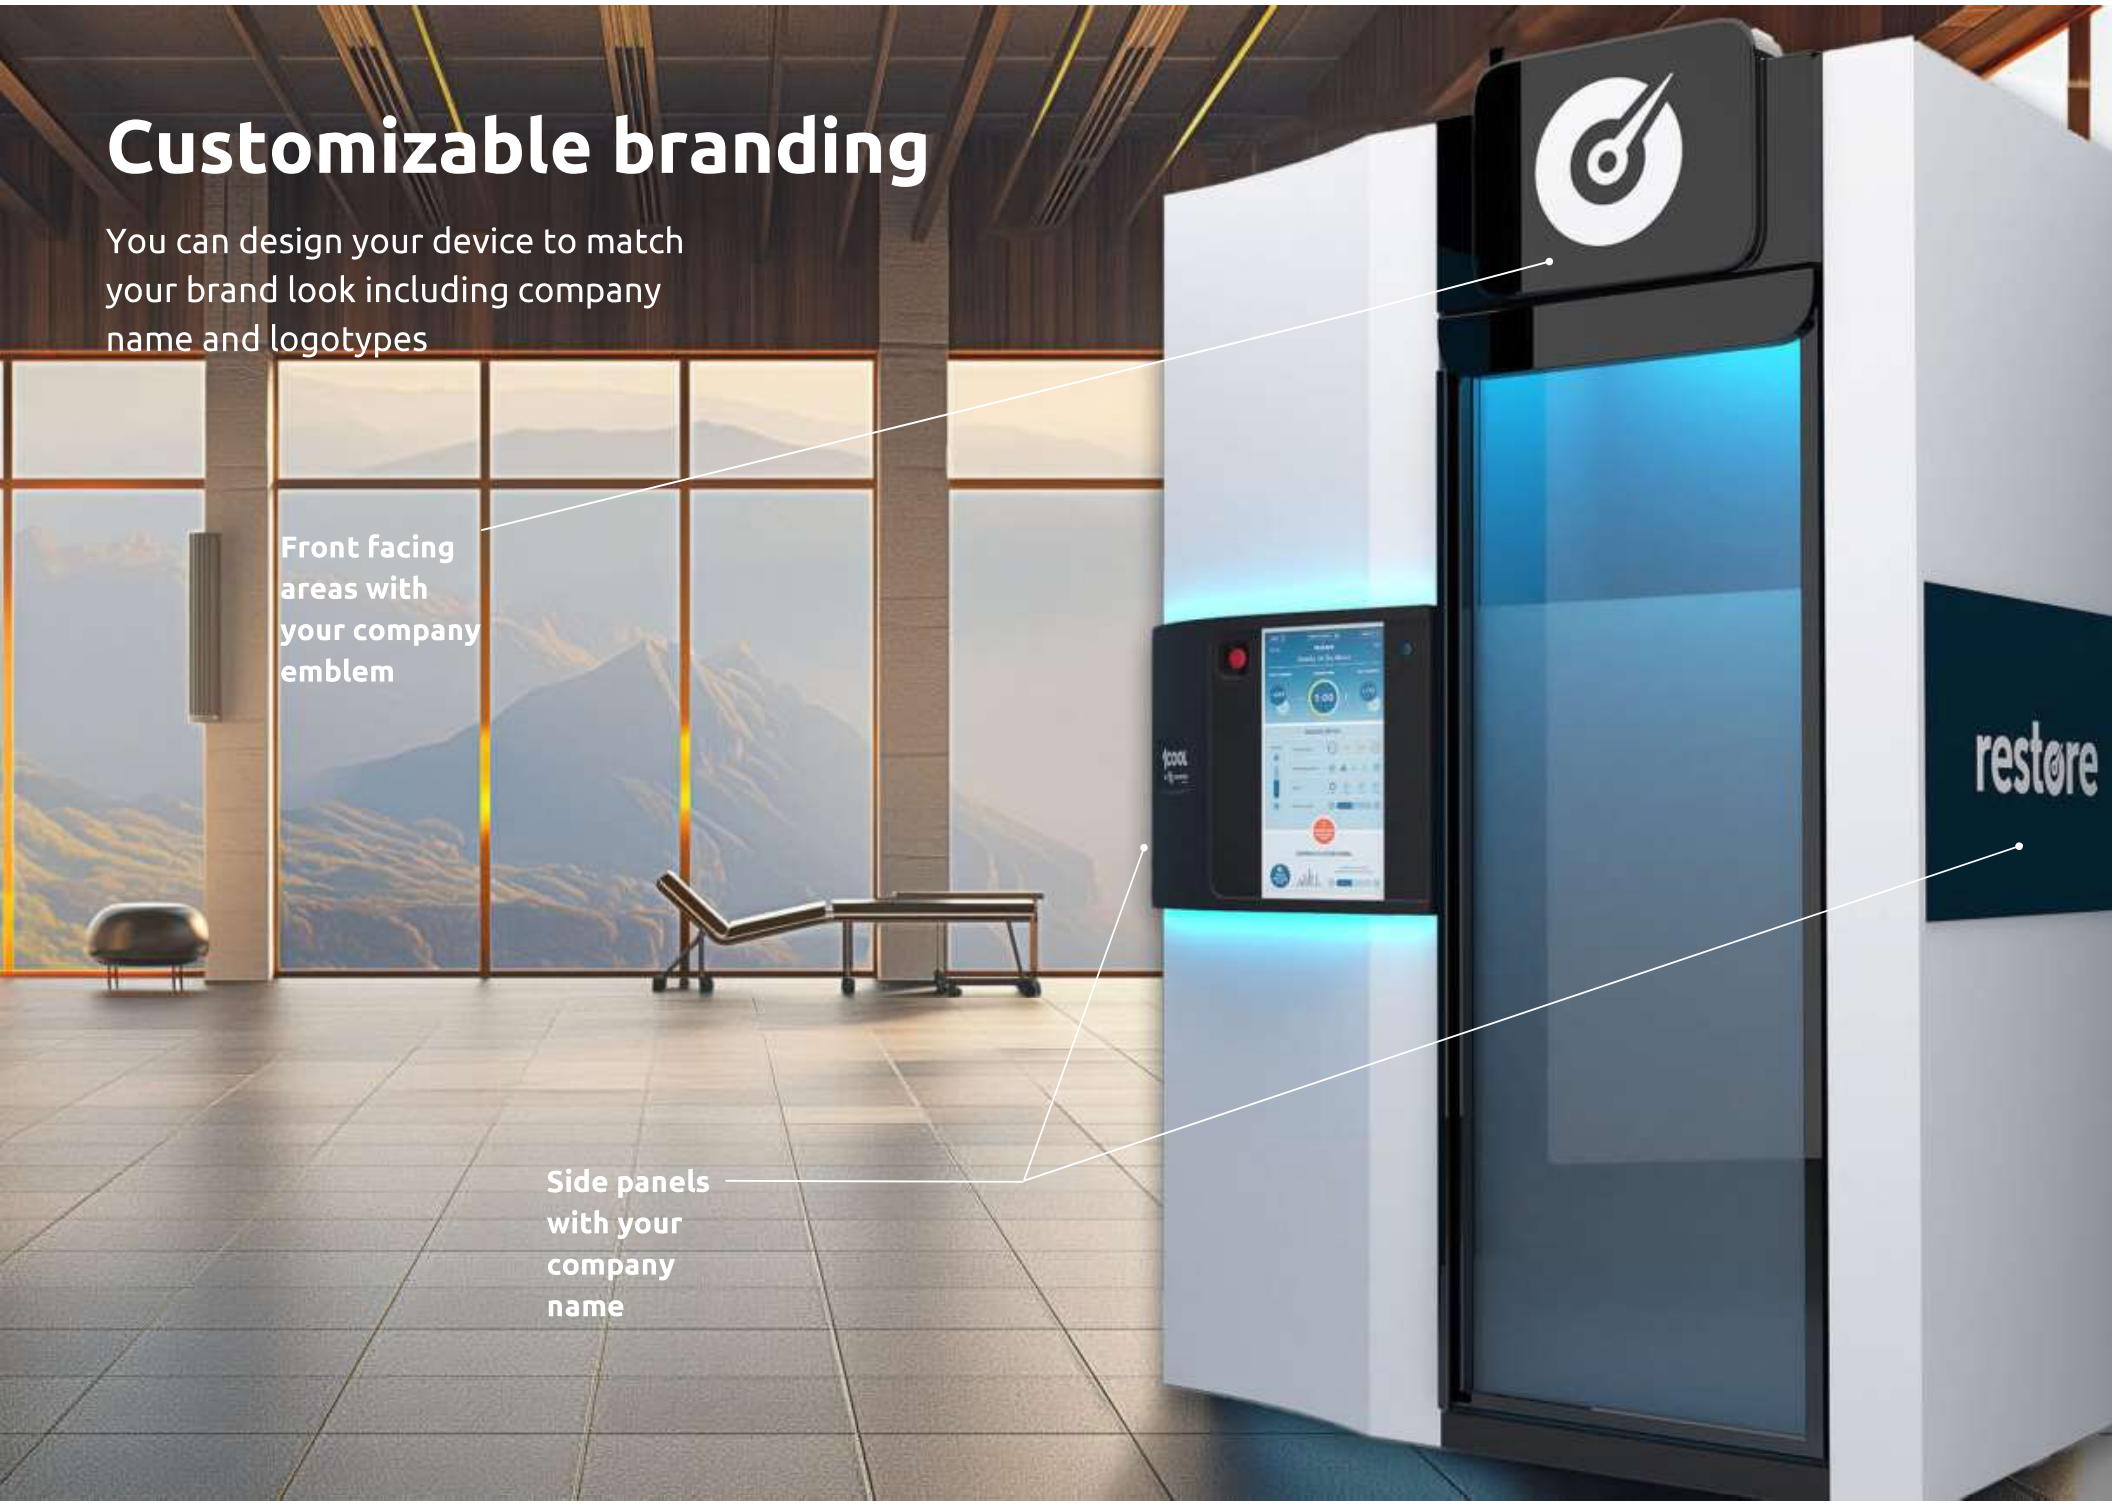


Cross Section



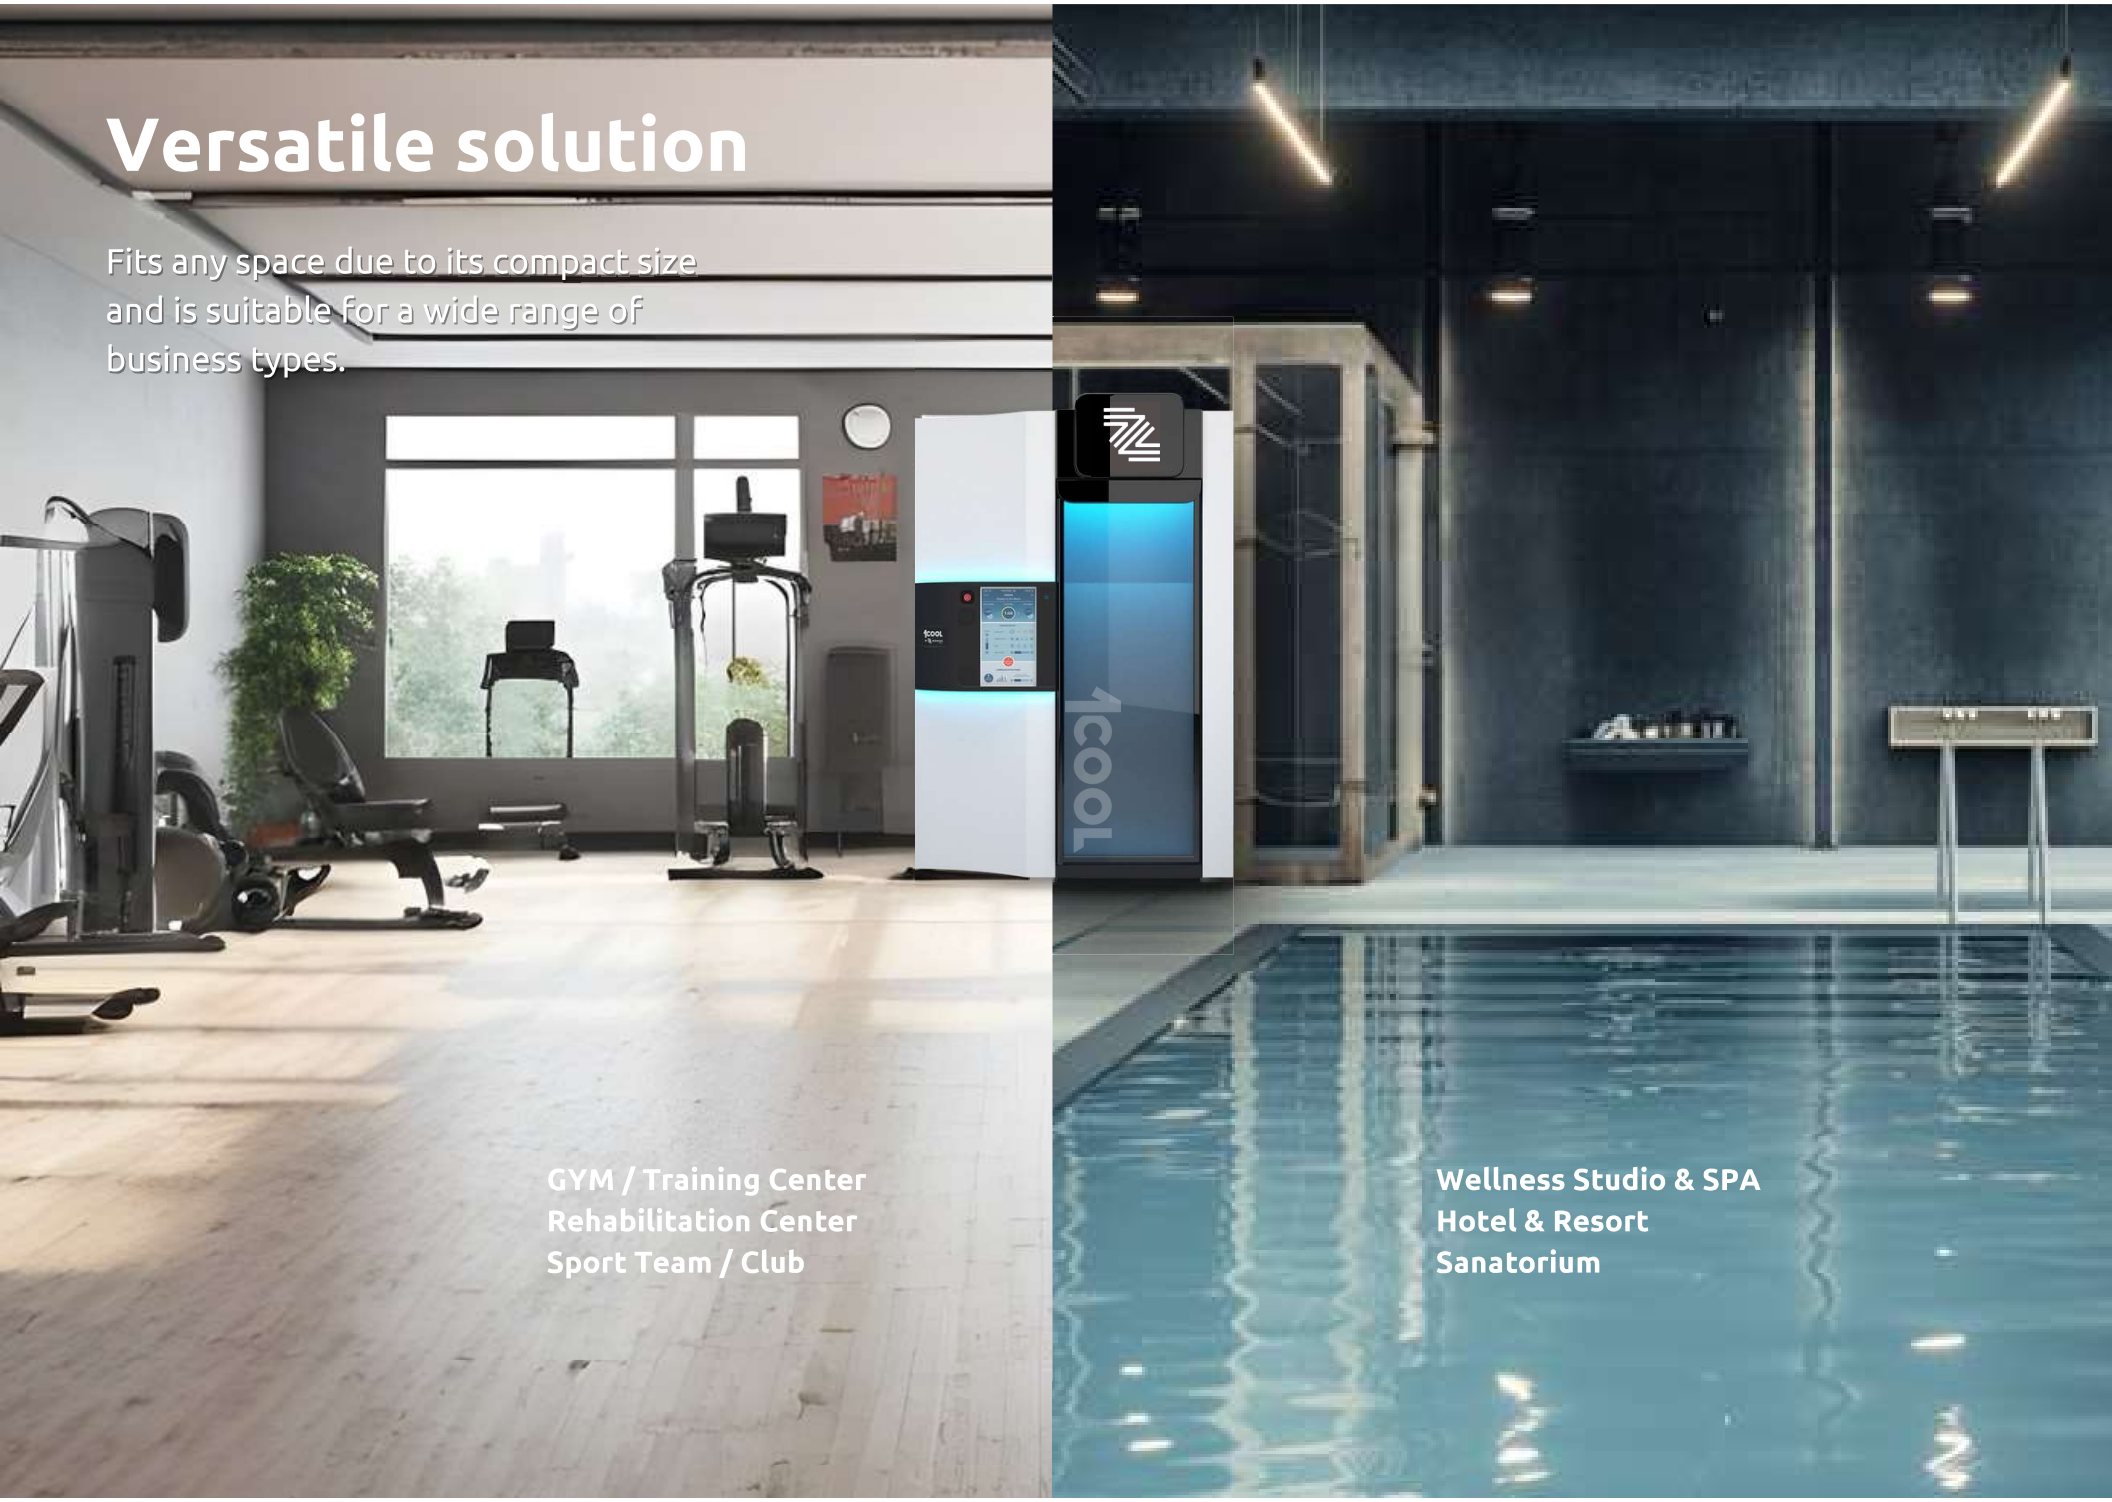
Customizable branding

You can design your device to match your brand look including company name and logotypes



Versatile solution

Fits any space due to its compact size and is suitable for a wide range of business types.



GYM / Training Center
Rehabilitation Center
Sport Team / Club

Wellness Studio & SPA
Hotel & Resort
Sanatorium

ZIMNO TECH

WE ARE ONE OF THE MOST SUCCESSFUL CRYO MANUFACTURERS YOU HAVE PROBABLY NEVER HEARD OF.

For the last 5 years we have been designing and manufacturing some of the most technologically advanced electric cryochambers for the biggest wellness franchise in America. Restore Hyper Wellness has trusted us to deliver 150+ devices to their franchise locations.

Our company is founded by top engineers based out of Poland, the home of cryogenics. Here, our research and development team is committed to delivering only the most efficient devices. We guarantee our cryochambers are built to optimize your business strategy.

Our Network

There are more Zimno Tech whole body cryochambers in the United States than any other brand name. Our nextwork spands across 30+ states, and we maintain a 99% uptime throughout all of our devices
